¹ The information in this tables depicts information collected from only those cases in which complete guideline information is available. Of the 70,068 cases in which the Commission received, 18,203 were sentenced after the United States Supreme Court decision in *Washington v Blakely* (decision date: June 24, 2004) during fiscal year 2004. Of the 18,203 cases, 14,734 contained complete guideline information (80.9 percent). It is possible for multiple guideline calculations for each case, and this table represents each guideline calculation for cases in which complete information was received.

² Post-*Blakely* 2004 data represents guideline application from guidelines effective November 1, 2003 unless otherwise specified.

³ This column represents the number of times each guideline or Specific Offense Characteristic is applied.

⁴ The “Percent” column represents, for each guideline, the percent of all guideline calculations in which the specific guideline was involved. For each Specific Offense Characteristic (SOC), the percent represents the percentage that the specific (SOC) was used in the calculations for the specific guideline.

⁵ Only values which are allowable, according to the sentencing manual, are counted.

⁶ Base offense level was increased on November 1, 2003.
